

**Instructions:**

**How to set up Safari to run in Rosetta-mode.**

In the dock, click and hold on the Safari icon.  
Select "Show in Finder." [Shown in the image below.]

In your finder window, select/highlight Safari (shown below) then choose File > Get Info or use the Apple-i keyboard combination.

In the "Safari Info" window, select the checkbox labeled "Open using Rosetta." [Refer to image below.]

Close the "Safari Info" window and relaunch the Safari browser.

You'll now be able to use Gizmos.
